

Objective

- Owner of star ecommerce store wants us to help them create a Dashboard to track & analyze their online sales across India.

Project learnings

- Created Interactive dashboard to track and analyze online sales data
- Used complex parameters to drill down in worksheet and customization using filter and slicers
- Created connection, join new tables, calculation to manipulate data and enable user driven parameters for visualizations
- Used different types of customized charts (bar chart, pie chart, donut chart, clustered bar chart, scatter chart, line chart, slicers, etc.)
